

# ICSA 2018 Seattle, USA April 30<sup>th</sup>-May 4<sup>th</sup> 2018

## Join us in Seattle for ICSA 2018

ICSA 2018 will be held from Apr 30-May 4 on Northeastern University's Seattle campus. Located on the edge of Seattle's downtown, in the vibrant South Lake Union neighborhood, the campus lies in the middle of Seattle's premier tech center, where Amazon, Facebook, Google, and numerous other innovators in the software industry reside. Leveraging this unique location, we are assembling a program comprising leading scientific and industry contributions in software architecture and component technologies.

South Lake Union is accessible in 50 minutes by light rail from the Seattle-Tacoma international airport. Hotels, restaurants, the iconic Space Needle and Pike Place Markets, and conference events all lie within a short walking distance of the Northeastern University campus. Seattle, bounded by the Cascade Mountains to the west and Puget Sound to the east, is natural wonderland and magnificent backdrop for diverse activities including whale watching, world-class local wine tasting, hiking, and trips to the Mount Rainier and Mount St Helens National Parks.

### **Important Dates:**

#### Research Track

Abstracts: Jan 18, 2018

Papers: Jan 25, 2018

Notification: Mar 1, 2018

Camera-ready: Mar 22, 2018

#### Other Tracks

Papers: Mar 15, 2018

Notification: Apr 5, 2018

Camera-ready: Apr 12, 2018

General Chair: Ian Gorton, Northeastern University

Program Chairs: Bara Buhnova, Masaryk University

Neil Ernst, CMU Software Engineering Institute

Clemens Szyperski, Microsoft
